

RHODE ISLAND

The simple
choice for
energy
efficiency.

Updated April 2019

Families and businesses are saving with the help of ENERGY STAR®

Rhode Island is home to about **50** businesses and organizations participating in U.S. EPA's ENERGY STAR program:

5 manufacturers of ENERGY STAR certified products

9 companies building ENERGY STAR certified homes,

as well as many businesses, schools, governments, and faith-based groups using ENERGY STAR to reduce energy waste.

Across Rhode Island

496 thousand customers were served by ENERGY STAR utility partners in 2018

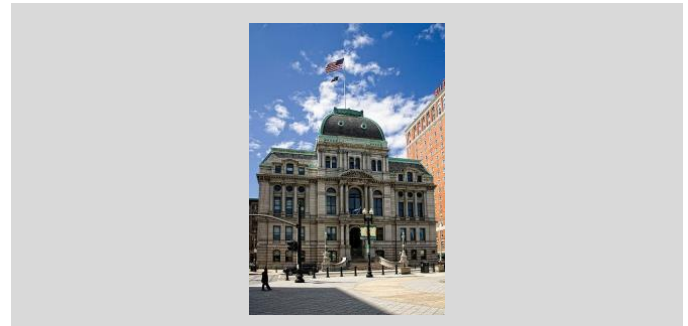

832 buildings (almost 64 million square feet) were benchmarked in 2018 using EPA's ENERGY STAR Portfolio Manager

4,431 homes have earned the ENERGY STAR

83 buildings have earned the ENERGY STAR for superior efficiency, including 40 schools, 1 hotel, 1 hospital, and 12 office buildings.

Recent ENERGY STAR Award Winner(s)

- National Grid

Providence City Hall, Providence, RI ENERGY STAR Certified in 2016.

State Spotlights

National Grid, a utility company serving nearly 7 million customers, manages a home energy assessment program in Rhode Island that leverages Home Performance with ENERGY STAR (HPwES). In 2015 alone, National Grid, completed **2,939 HPwES projects**, finding through a survey that 98 percent of customers said they would recommend the HPwES program and that they rated their satisfaction a 9.2 out of 10.

Management at Providence City Hall has proven that properly performed energy efficiency retrofitting measures can reduce building emissions and provide energy cost savings. The City hub is on track for continued savings in energy and dollars. Conversion from oil to gas heat, heating system upgrades (including the replacement of antiquated boilers and building controls in 2013), lighting retrofitting, and energy procurement strategies have resulted in an estimated combined energy **cost savings of more than \$222,000** from 2012-2016.

"Energy efficiency is the cornerstone of Rhode Island's sustainable energy future. It is creating quality jobs, reducing energy bills, improving business profitability, making homes and buildings more comfortable, and reducing air pollution and carbon emissions. For more than 20 years, ENERGY STAR has helped Rhode Island – and other states – meet its energy efficiency goals by informing consumers and building owners to make smart energy choices." – Sue Coakley, Executive Director, Northeast Energy Efficiency Partnerships
